

## Mortality Action Plan

Action	Milestones	Lead	Target Date	Progress	Target Achieved
<b>Development of a Primary Care Mortality Framework to incentivise the outcomes and learning from the reviews in a systematic format /approach</b>	1. Present to the CoM to seek permission to explore this further and to seek their views on which deaths should be reviewed initially, and how widely the learning should be shared. 2. Design/identify a template to facilitate the review of deaths. 3. Practices to share the learning from the mortality reviews internally. 4. Wider sharing of learning at a city-wide PTL for primary and secondary care.	James Crick/James Moulton/Marie Hancock/ h	Apr-18	Presentation to COM July 2017 by SS, JM and JC. KM 7.9.17 Integrated Delivery Group agree to include this in the incentive scheme for Primary Care. KM 20.9.17 Initial Scheme drafted and being reviewed - 31st October SS	
<b>To develop a consistent communication to families when undertaking mortality reviews</b>	Consistent narrative to be developed and shared for use to communicate with families regarding mortality reviews	Sarah Bates / Allyson Kent /James Moulton/ Kate Memluks / Gail Mayes	Dec-17	October 2017 HEY - Communication to families regarding mortality reviews are included in the bereavement packs for families October 2017 = Humber to review bereavement packs Narrative included in Primary care scheme - 31st October 2017 - SS	
<b>Mortality PTL for Primary and Secondary care to share the learning</b>	1. Reminder at the February PTL that the June/July will be on sharing learning from mortality reviews (and will be led by the practices themselves). 2. Identify lead from each grouping to be part of a task and finish group to steer the PTL. 3. PTL to take place.	James Moulton/ James Crick	June/July 2018	09/11/17 - planning in progress	
<b>Develop a roadmap of processes which review deaths</b>	1) Draft road map 2) Share and agree with providers	David Blain/Sarah Bates/Allyson Kent/ Gail Mayes	Dec-17	Road map now part of providers policies	
<b>Involvement of Primary Care Clinicians in appropriate SI investigations</b>	GPs to be invited to participate in relevant SIs were appropriate	Sarah Bates/Allyson Kent	Dec-17	October 2017 - GPs are being invited to participate in relevant SIs were appropriate This will also be included in the SI template for review	
<b>Why do so many people die in Hull? – Conduct a review of the current literature</b>	Public health review	Tim Fielding	Jun-17	Deaths in Hull: Analysis of mortality rates, trends and place of death completed and considered by mortality group	Jun-17
	1. Point prevalence mortality review of "Patients who die within 48 hrs after transfer from a Care Home to hospital in Hull".	James Crick/ Marie Hancock / Chris Johnson / James Moulton	Jan-18	31.10.17 The Point Prevalence review has been arranged and will take place at Castle Hill on 30th January 2018. The review is being managed by the Clinical outcomes manager (Chris Johnson - HEY). The review will be attended by James Crick, James Moulton, Dan Roper, along with participants from HEY (yet to be identified).	
<b>To establish a system for sharing of learning of across the health family</b>	to develop a learning network, annual events and newsletter	Sarah Smyth	Jun-18	Serious Incident learning event planned for spring 2018
