

**PRIMARY CARE COMMISSIONING COMMITTEE
MEETING HELD ON 26th OCTOBER 2018**

**CHAIR'S UPDATE REPORT
PART 1**

INTRODUCTION

This is the Chair's report to the Clinical Commissioning Group Board following the October 2018 Primary Care Commissioning Committee.

GOVERNANCE

No items of governance were discussed.

STRATEGY

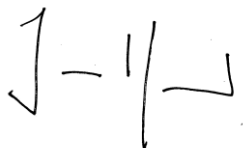

The Committee considered a request from Wolseley Medical Centre to close their patient list and to change their boundary area. The boundary change request was approved but it was considered that there was insufficient information to make an informed decision on the list closure request.

The Committee noted updates in relation to International GP Recruitment and the Extended Access service.

The Committee also noted the Variation Agreement provided by NHS England to update the Delegation Agreement to reflect the General Data Protection Regulation (GDPR).

SYSTEM DEVELOPMENT & IMPLEMENTATION

The Committee received a Minor Surgery update report which provided an updated list of procedures to be covered and a proposal to commission minor surgery at scale from practice groupings. It was agreed to commission at scale but that further work was required in terms of the scope of the service.
