- 1) The NHS aspires to the highest standards of excellence and professionalism
- 2) NHS works across organisational boundaries and in partnership with other organisations in the interests of patients
- 3) Quality of care
- 4) You have the right to expect NHS organisations to monitor, and make efforts to improve, the quality of healthcare they commission or provide.

# **INTEGRATED DELIVERY FRAMEWORK – LOCAL QUALITY PREMIUM SCHEME 2019/20**

## **1. INTRODUCTION**

The purpose of this report is to present the Primary Care Commissioning Committee with an update on the Local Quality Premium Scheme for 2019/20 for approval.

## **2. BACKGROUND**

The Local Quality Premium Scheme for practice groupings in 2018/19 consisted of the following:

1. Managing Need
  - Clinical Peer Review
  - Prescribing
  - Multiple admissions (mental health and alcohol)
2. Chronic Disease Management
  - Heart Failure identification
  - Atrial Fibrillation management
  - COPD NICE Audits
  - Children's asthma treatment plans
3. Community Frailty/Primary Care Data Quality
  - Community frailty pathway – electronic frailty index (eFI) search and coding
  - Community infection in care homes
  - Data quality review
4. Community Frailty Pathway - follow-up assessment with an individual's own GP practice to ensure needs continue to be met following an assessment at the Jean Bishop Integrated Care Centre.

## **3. INFORMATION**

The meeting of the Primary Care Commissioning Committee held in February 2019 approved the following

1. Carry forward the timeframe for completion of 2018/19 schemes to end June 2019;
2. No additional resource to be available for 2018/19 schemes over and above that already approved in April and June 2018;
3. Where achievement of 2018/19 scheme requirements occurs in 2019/20 the associated payments to be made in 2019/20;

4. Further work to be undertaken to develop 2019/20 schemes - this to include roll-over of 2018/19 schemes where appropriate and development of new schemes;

Final reports from practice groupings are due at the end of June 2019 for schemes 1 - 3; in relation to scheme 4 submissions are made by individual practices.

The schemes have been reviewed by the Integrated Delivery Core Team and the CCG Chair and a Board GP representative. Given the development of Primary Care Networks and the associated requirements on practices as they develop to work as part of a Network and other developments taking place in relation to high intensity users it is proposed that the schemes 1 - 3 come to an end at the end of June 2019 but scheme 4 as it is key to delivery of the Integrated Care Centre model be extended for a further 3 months and be reviewed during this time. Further schemes for Primary Care Networks are anticipated to be developed for consideration by the Committee in future.

#### **4. RECOMMENDATION**

It is recommended that the Primary Care Commissioning Committee approve the proposed plan for 2019/20.
