THE NHS CONSTITUTION: (*How the report supports the NHS Constitution*) The Annual Report is most relevant to the two following sections of the NHS Constitution:

6. The NHS is committed to providing best value for taxpayers' money

It is committed to providing the most effective, fair and sustainable use of finite resources. Public funds for healthcare will be devoted solely to the benefit of the people that the NHS serves.

7. The NHS is accountable to the public, communities and patients that it serves

The NHS is a national service funded through national taxation, and it is the government which sets the framework for the NHS and which is accountable to Parliament for its operation. However, most decisions in the NHS, especially those about the treatment of individuals and the detailed organisation of services, are rightly taken by the local NHS and by patients with their clinicians. The system of responsibility and accountability for taking decisions in the NHS should be transparent and clear to the public, patients and staff. The government will ensure that there is always a clear and up-to-date statement of NHS accountability for this purpose.
