CORPORATE RISK REGISTER

1. INTRODUCTION

- 1.1. The purpose of this report is to brief Board Members on the current corporate risk register.

2. BACKGROUND

- 2.1. The CCG maintains a comprehensive risk register sets out the full range of risks to achievement of CCG objectives. The corporate risk register comprises those risks on the risk register with a risk rating of high or extreme.
- 2.2 Individual risk owners are responsible for updating, reviewing, and managing their risks. The risk register in its entirety is a standing agenda item at the Health, Safety and Security Group and the Information Governance Steering Group for discussion. It is also considered regularly at the main committees of the Board.
- 2.3 The corporate risk register is reviewed in detail at each meeting of the Integrated Audit and Governance Committee as well as bi-annually by the CCG Board.

3. CURRENT RISKS ON THE CCG RISK REGISTER

- 3.1. There are currently 36 risks on the CCG risk register. Of these, 21 have a current risk rating of high or extreme (that is 8 or above) and are therefore included for Board consideration.
- 3.2. Progress on the individual management of each risk is shown within the register.

4. RECOMMENDATIONS

- 4.1 It is recommended that the Board Members note the updates provided and comment, where appropriate, on the adequacy of the controls, assurances and mitigations within the corporate risk register.
