

## OUR WORK AND DELIVERABLES

- Developing our leaders now and for the future
- Optimising additional roles and identifying new types of role to support resilience and innovation in delivery
- Focus on training, staff development and wellbeing
- Shared employment opportunities and new approaches to recruitment
- Integrated neighbourhood teams – one workforce

- Using different models to support at scale delivery
- Learning how to best deploy new technologies
- Adopting standardised ways of working to free up clinical time

- Developing and expanding prevention pathways
- A simple 'Digital Front Door' – including use of telephony
- Improving digital inclusion
- Same day access to Primary Care
- Integration across sectors working in partnership in communities
- Expansion of Community Pharmacy Service
- Delivery of estates strategies

- Embedding population health management (PHM) approaches in Primary Care – built around PCN populations
- Defining and delivering our Core 20Plus5
- Access to consistent, high quality data and real time operational intelligence
- Investment for innovation that demonstrates real change

## OUR AMBITION

*Primary Care and people empowered and supported to make the best shared decisions*

## OUR PRIORITIES

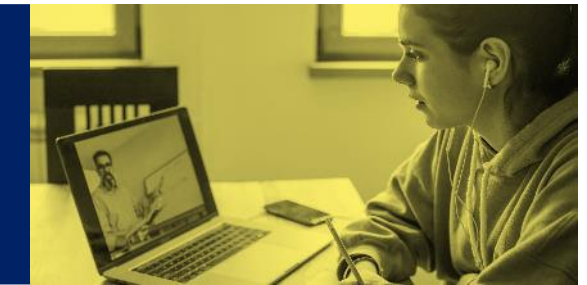

A supported workforce that is empowered to innovate

Learning from each other and scaling-up when it's right

Access that meets the changing needs of our populations

A focus on population health and inequalities to level up
